BlackBerry Bold 9790 with Train of Impressive Features by Nick Willis

Article published on February 4th 2012 | Technology

It has been a few months since BlackBerry Bold 9790 surfaced in the market carrying a lot of new wonders under the esteemed banner of RIM and it is still rocking market as if it has just landed from heaven. The Bold 9790 is a dream comes true for mobile phone geeks who wanted to enjoy touch screen along with QWERTY keyboard with a BlackBerry phone, for it comes with QWERTY keyboard as well as touch screen. Though touch screen of the phone is not very big, it offers 2.45 inch display, it has sufficient numbers of pixels and 16 million colors so as to show clear and bright pictures in vibrant colors.

This handset has been particularly designed for mobile phone consumers who prefer QWERTY keyboard for typing messages and mails on the phone than poking on the touch screen. However, touch screen fashion is on hype so RIM too did not want to lag behind in the race of touch screen smart phones, and the result is before you in the form of BlackBerry Bold 9790 which has QWERTY keyboard functionality along with mid size touch screen.

As for space with the device, it has extendable memory slot which supports up to 32GB micro SD card, nevertheless it has 8GB internal memory of its own. Besides, it has regular smart phone features such as Bluetooth A2DP, EDR v 2.1, Micro USB connectivity apart from traditional as well as latest internet connectivity applications. Users can enjoy high speed internet surfing and downloading via HSDPA and HSUPA up to 7mps speed. However, if you canâ€™t afford 3G network, EDGE and GPRS internet connectivity application works decently on 2G network. Adding further, it comes with satellite navigation which has A-GPS support.

Since the device is stuffed with hoard of multimedia and communications features, it is powered by 1GHz processor. The processor works like magic wand on BlackBerry OS 7.0. If you want to enjoy these wonders, you can take benefits of BlackBerry Bold 9790 deals of the UK online market. There are several numbers of mobile phone merchants who are offering pay as you go and lucrative contact with leading network service providers along with free minutes of talk time, text messages, internet data and branded free gifs.
