Chaikin Power Tools, iSafe N Secure, QuoteMaker Pro - Three Must-have Utility Apps by Steve August

Article published on February 8th 2012 | Technology

I think it is time to forget software as we have entered into the era of apps â€“ thanks to the iOS devices. They were once considered convenient for only games and other entertainment. However, things have changed a lot. Now the App Store has a lot of utility apps that could make your day a lot easier. Let me introduce a few must-have utility apps today.

Chaikin Power Tools: It is a powerful marketing tool once available only to the stock exchange professionals. Now anyone who wants to track the movement of the Wall Street stocks can get it for free. Users can create a watch list of companies inside the app to receive regular real-time alerts such as significant news stories, earnings surprises and estimate revisions from it. Apart from these, they could also get five years chart for any stock. If the users want to avail a detailed report for a company, they can get the same for USD 1.99. As this app is available at free of cost, Chaikin Power Tools is must-have, even for small investors. This app is compatible with iPhone, iPod touch, and iPad and it requires iOS 4.0 or later. Download it here: http://itunes.apple.com/us/app/chaikin-power-tools/id421102613

iSafe N Secure: Are you struggling a lot to remember passwords? Looking for a convenient way to safeguard important information such as medical history, insurance and investment details? iSafe N Secure can help you in this. Users can add information under a variety of categories such as accounts, finance, retirement, insurance, investment and retirement. They can also add a few categories, if they want. When there is a lot of information to upload, Add PDF option of iSafe N Secure would come in handy. Apart from the huge static icon, everything is fine with this app. It is compatible with iPhone 3GS, iPhone 4, iPhone 4S, iPod touch (3rd generation), iPod touch (4th generation) and iPad and it requires iOS 4.0 or later. It costs USD 1.99. Download it here: http://itunes.apple.com/us/app/isafe-n-secure/id491985972

QuoteMaker Pro: This app helps sales related professionals in providing sales proposals to customers. It offers precise control over the appearance of the proposals to let them fine-tune the profit margin. The profit margins can be specified for an entire quote, for a group of item or on a line item level. QuoteMaker Pro supports both cost-plus and list-minus sell price computations. Users can also import data from any compatible file, uploaded through iTunes. The Grab action saves lots of time by allowing users to copy information from another quote. Before start using QuoteMaker Pro, they need to customize it by visiting the Preferences and Quote List areas of the app. This app is compatible with iPad and it requires iOS 4.3 or later. The price is a bit on the expensive site (USD 14.99), but worth it. Download it here: http://itunes.apple.com/us/app/quotemaker-pro/id486283767

There is a lot more to iOS devices than playing and browsing. If you want to get more out of them and to use them to their fullest of capacities, you can certainly try these apps. They are useful, life-improving and enrich your iOS experience.
