# Comfortable Viewing & Cost Effective: 3D TV from LG by Barry Knightly

Article published on January 24th 2012 | Technology

Offering the latest in 3D TV technology, enjoy the latest television and movies in high definition 3D and 2d.

With the full Cinema 3D range from LG, you can enjoy movie like 3D viewing in the comfort of your own home, surrounded by friends and family.

Affordable

Itâ€™s easy and affordable to enjoy the latest 3D technology within your own home with Cinema 3D.

LGâ€™s 3D glasses are just like those you get at the cinema. With no batteries required, they don't need recharging.

Theyâ€™re easy to replace, lightweight and provide you, your family and friends with a stunning full HD 3D picture.

With every Cinema 3D package, you receive an extensive seven pairs of 3D glasses.

If you find you need more, extra pairs of comfortable 3D glasses are inexpensive compared to the competitors, coming in at only Â£2 a pair.

Picture Perfect

Your 3D monitor provides wider viewing angles meaning you, your friends and family â€“ regardless of position â€“ will all be able to experience the same immersive 3D from anywhere in the room.

SUPER Energy Saving

The Cinema 3D range comes with LGâ€™s SUPER Energy Saving technology. With this, it enabled you to run on lower power consumption without any image loss.

Not only does this save you energy in the household, but also ultimately saves you money on utility bills.

2D to 3D Conversion

Certain 3D monitors available through LG allow any 2D images to convert into 3D through software provided with your package. 2D to 3D Conversion enables the enjoyment of 3D through any contents.
