Digital photo frames are great gifts for all occasions. Memories last till end, and what can be the best gift than a digital photo frame to eternalize those memories? They are stylish, portable, and trendy and never out of fashion and most importantly are they within a manageable budget. These digital photo frames are found in various shapes, sizes and colours to match personal requirements.

Digital photo frames can be gifted in various occasions even with a touch of personal creativity. Say, if it is your belovedâ€™s birthday, or itâ€™s the birthday of your parents, family or friend, you can select ar install the loving photographs you cherish in the digital photo frame and gift if to your near and dear ones. This is not only fantastic, but also has your personal touch and love. For occasions like marriage ceremonies, these digital photo frames can serve as wonderful gifts. The couple will love to see their pictures in various moods in their room and will thank u for the gift for sure. These frames can serve as wonderful parting gifts as well, as the farewell gifts where you can put the pictures you want the person to cherish. Those moments will remain as eternal, and the distance will not sand as the barrier. Even for condolences you can gift the mourning family a digital photo frame, if the family is very close to you, where you install the lively photo of the person deceased and the photographs with his/her family. The grieving family will definitely be touched by your special effort. Relations always require these special touches in todayâ€™s world when all our communications with our closest of all relations are almost on the virtual level. These small efforts will re-live the magic.

Digital photo frames are best buys for your own house too in which you can put the pictures of your marriage day, your childâ€™s first picture, pictures of your parents and family. The very sight of those days will make you happy, and so will be your family. Who does not like loving memories?

These digital photo frames are wonderful as home decors as well if you can place them at the correct place at your house. Place the digital photo frame in the living area in a triangular position over a table top in between two sofa sets. The view serves a very eye-comforting picture of a happy family. If you plan to place it in your bedroom, place it on your bed-side table. The sense of your family being around will enrich the filial cosiness. In your childâ€™s room, place it on his/her study table. During the moments of break, even he/she will love to see the glimpses of his/her family. Bonds get the much required boost when those loving pictures are displayed in these digital photo frames, a sense of closes tinges in your heart. Some digital photo frames are stylized to show pictures in slide shows as well. And today, there are various photo artists available who can help you stylize the photos according to your wish. Also, if you know some tricks at Photoshop your creativity gets a great way to get

channelized. It varies from 7-12 inches and installs jpeg pictures only.

These digital photo frames are best buys in terms of budget also. They are pocket-friendly and are easily available in market. It varies from range to range starting from Rs. 700 for the photo frames available in local or Chinese companies to Rs.8, 000 or so if you prefer companies of repute. Varies companies, local, Chinese or branded have their digital photo frames available in the market.
