Dot Matrix Printer - an Integral Part of Every Office by [James Blee](#)

Article published on December 24th 2011 | [Technology](#)

Given the fact that a dot matrix printer has so many advantages associated with it, this is regarded as the main reason why it is treated as an integral part of every kind of office. For instance, it can get you innumerable copies of hard copies that too within a fraction of seconds. The ease and comfort present in a dot matrix printer has made it a viable option for home offices as well. With this sudden surge in demand for this product, it was forced the manufacturers to come out with different types and models. The market is flooded with different shapes, colors and designs of this product which has benefited the common person in more than one way. For instance, they are able to find a model or variety exactly in the manner they prefer. The manner in which this type of the printer works is totally different from that of impact printer. The former is known to work by taking help of pins and ribbons that are closely spaced. It is movement of these ribbons and pins that ultimately results into printing of characters and letter.

On the other hand, an impact printer is best known for the after-effects it has on the paper. This is totally different from what is the case with ink-jets and laser printers. The best part â€œ it enables the users to print in a single go multi-part forms. However, the experts of the industry say exercising a couple of precautionary steps will benefit you in many ways. For instance, educating yourself about the features is one such step. In this way, you can arrive at a conclusion whether or not a particular model fulfils your every parameter.
