Article published on December 10th 2011 | [Technology](#)

iPad is one of the most advance technology in this computer era as it is released. Many of us are looking for perfect apps for our needs like applications for work, designing, chatting and also for gaming and movies. These are some of the few applications that are very useful in our daily activities. There is good news, not all the application for your iPad is paid. Most of the apps for iPad are free and abundant in the internet, some problems on the iPad is managed by the developers of iPad 2. But be careful as you choose, pick the best and the most credible one. Choose the most efficient yet trust worthy site, some of them might be a virus.

But there is another Apple technology arises from the market. The iPad 2 which has more use than its predecessor iPad, it has great changes on the applications and anti-viruses property. This must is the best tablet computer on the planet. When you lift iPad 2 from its box, you will definitely be amazed on the new cover of this iPad 2. A sturdy feel that is retained from iPad, it's not least bit fragile and does not have a single flexibility on the frame.

The best part of this wonderful unit is its newest iPad 2 OS, the iOS 5 and also the most awaited iCloud. You can easily access your entire folder, multitasking, new Airplay and its thinner size rather than first iPad. Thinner means lesser weight but don't worry about the battery life because it is still the same as the first and with over 500 new software features that can use whether business and education, everyone can use this amazing new innovation of iPad 2.

No wonder that iPad 2 is one of the best seller gadgets for this new era by being user friendly technology. Dual core tablet computer that can last up to 10 hours of usage and has a rear-facing camera for FaceTime video call with a superb video graphics with a real-time feature.

Try to read articles regarding iPad 2 apps for a better vision of using this gadget. This will help the possible users on how to pick the right apps for their own use or for their family member and how it can be properly used. Remember that not all the apps can be used by your kids. Most of the application can affect your children's intellectual and users should find one that suits your family need. More apps like the Angry Birds can boots up motor skills of your family and many educational applications are also available in the market. For mommies that love to read, there are also available apps for you.

Ipad 2 will give a huge challenge for the producers of tablet computer. One of a kind tablet computer that gives almost all the needs of a techie and computer geek desire, a gadget that is suitable for everyone. Durability and usage is sophisticatedly tested to be one of the finest gadgets in this era.
