Features of IBM 4247 Impact Printer by James Blee

Article published on June 9th 2012 | Technology

In businesses and corporate houses where there is a constant requirement of high volume printing and the deadlines are supposed to be met efficiently, reliably and at a fast pace, the owners depend on the most cost efficient and remarkably heavy duty dot matrix printers. From a very long time, IBM or the International Business Machines Corporation, which is considered as one of the most trusted brands, has been manufacturing high quality efficient printers. One such serial top quality dot matrix printer launched by the company is the IBM 4247.

Backed by the brand name IBM, impact printer is a multi-form serial dot matrix printer that comes together with high speed as well as well packed features that enables the user to upload up to 6 forms at once in the printer. It also has a speed of printing up to 700 characters per second and can support both cut sheets and continuous form paper. It also has a powerful design that can print up to eight-part forms and is comparatively much quieter than usual noisy printers of this kind. Combined with paper parking, switching and linking, this printer helps in maximizing the printing options and productivity.

It has both switchable and user-installable interface cards, and comes with automatic thickness adjustment. It is easy to understand and use design and the feature of document on demand, which in turn minimizes the paper waste. This flexible printer also offers emulations of a great variety including Epson printers and IBM Proprinter. IBM SCS and DSC/DSE data streams and IBM Intelligent Printer Data Streamâ„¢ are also supported by this IBM printer.

Not just great features and the standard warranty, this printer also holds the benefit of IBM customer services which are available to the user 24*7. All these attractive and efficient features make this printer a great choice for business environments.
