Article published on April 26th 2012 | Technology

Did you suddenly start getting an intuition that your wife is cheating on you? Well, this intuition can be wrong also, but if this intuition is coming over again and again, then something is probably wrong. But how to tell if your wife is cheating on you or not, if you think of asking her straight, it wonâ€™t work.

Mostly it happens, that after a certain period spouse behaviour change, so you canâ€™t even say whether your wife is cheating on you, if sheâ€™s working woman it can be possible that workload is getting high. But, if you are damn sure about your gut feelings, then probably she is cheating on you. Now, how to catch a cheater is a main question.

Some of the signs are there if you notice them, then something is fishy you can say.

Firstly, you will notice is lack of communication and if you try to touch her she will find a smart excuse to distant you. You might notice that now she's getting irritated on those things that she used to laugh on earlier. You may even get feeling like you are staying with a stranger under one roof. This is not the major one, but certainly it happens.

Another one, if you see that sheâ€™s mostly involved with her work, and doesnâ€™t care about your feelings or even she might be ignoring kids. She stays out of home for long hours that never happened earlier. These are some of the signs by which you can think that possibility of cheating is there.

If you have noticed that, suddenly she started making new friends and she keeps on talking about them all the time and one of them is becoming special in her conversation who is male friend.

She speaks on the phone for longer time, and if you ask her she doesnâ€™t give appropriate answer to your question, or she tries to hide text messages or she doesnâ€™t speak with that one particular friend in front of you. Then you absolutely have a valid reason of being suspicious.

Another reason you can find is that, suddenly your wife start behaving extra smart with you. If she had an affair and she feels guilty about this and wants to forget it, possibility is there that she will give more attention than usual towards you.

Still, sometimes itsâ€™ possible that your gut feelings can be wrong, but mostly these are some of the signs by which you can tell if your wife is cheating. How to catch a cheater, about this you canâ€™t say it unless you havenâ€™t found anything obvious or else you havenâ€™t found her with someone. But these are some of the signs that portrait the answer on how to tell if your wife is cheating on you.
