IBM 4232 for Improved Productivity by James

Article published on February 27th 2012 | Technology

The IBM 4232 Printer is an impact player of the highest order. With speed, compact size, stability and low sound coupled with productivity of the highest quality and its ability to support application software packages, this dot matrix printer is a value for money buy and triumphs in the most demanding situations. Be it for an office or home use, dot matrix printer is the favored lot.

Talking of features, its speed of 600 characters per second and four print speeds place it a step ahead of other printers from the dot matrix stable. Another plus is its configuration; it can be attached to almost all hardware systems. Its talking point, however, is its compactness and features. Accommodating less space and being high on performance, it serves as office printer to the tee. This is an easy to use dot matrix printer and has got a user-friendly menu to operate the printer and one does not require any training to work with this printer.

With quality modes like the Near Letter Quality mode in the ibm 4232 printer, it provides quality print for word processing applications. Moreover, its low noise at 53 dBA only, is also a welcome feature for office environment. Apart from word application, it also has graphic capability, including bar codes. This multi-purpose dot matrix printer can be used as primary printer for small systems or workstation printer for large ones. It can also be utilized for LAN installations.

Among its other benefits include, auto-forms thickness adjustments, auto-forms loading, automatic eject and restore facility after timeout. With its innumerable features, the IBM 4232 provides for a clutter-free usage for users. With virtually no paper jamming and easy usage, this printer tops every list of â€˜must havesâ€™ for an office or any other demanding business environment.
