Motorola CP200 and the Value It Brings by James Blee

Article published on December 21st 2011 | Technology

The motorola cp200 is a portable 2-way radio which delivers outstanding performance and comes with a wide array of excellent features that can be put to great use both during emergencies as well as normal functions like traffic patrol or building security. The radio is available at very good price too and could be perfect for business communication needs. There are two models which are popular in cp200. These include the 5W VHF and the 4W UHF models.

The biggest benefit of this model is the 500 MW audio output which can be heard even when it is very noisy or chaotic. The booming sound can make itself heard crisply and clearly in spite of all kinds of disturbance. However, audio output is not the only impressive aspect of this 2-way radio. Its design too is beautiful and ergonomic. It is highly efficient and exactly built to suit the requirements. The radio, being very lightweight is highly portable and can be carried around with ease during operations. A very salient aspect of this radio is the presence of programmable buttons which let you customize the operation of your radio to suit your needs. Thus, it is efficient and also comes with operational ease making your task simpler at the end of the day.

The 2-way radio also comes with a variety of accessories that you can pick and choose from depending upon the requirement. You can also choose between VH4 16 channel, UHF 16 channel, UHF 4 channel and VHF 4 channel models depending upon what suits your requirement perfectly. Hands free device, chargers, headsets and earpieces are also available with the radio along with high quality speakers and microphones designed to ensure wear and tear and some heavy duty usage, all at highly economical prices to suit your budget.
