Motorola XPR 6550: an Efficient Portable Radio by Julia Roger

Article published on December 5th 2011 | Technology

Motorola is one of the leading manufacturers today in terms of radios and mobile phones and the Motorola CP200 is one of their best products. Its two way facility makes it one of the bets buys for industrial and commercial usages. Here are some of the key features of the motorola cp200 and you will understand why you should consider buying it if you are looking for a two way radio.

â€¢ It has a full keypad hat allows multiple function.

â€¢ It does not have unnecessary buttons that only complicate things in matters of urgency. Rather it has a few well defined buttons which serve multiple functions with short or long presses.

â€¢ It has quite a large rotary channel selector. That makes the handset very efficient compared to its counterparts in the market.

â€¢ It is GPS enabled, making every kind of communication possible.

â€¢ For switching it on and off and for volume, it has easy to push buttons.

â€¢ It has very good sensors that allow it to respond to signals even from very long distances.

â€¢ Then the speakers and the microphone are of the best quality so that they give you crisp and clear hearing even when you are in a crowd.

â€¢ Its Lithium battery is of very high capacity and more efficient than most other two way radios available in the market and has 40% more power than any other battery.

â€¢ They are very good for use in the hospitality, retail and even in the military and other inspectional services where quick communication is a top priority.

So now, do consider motorola cp200 the nest time you want to buy a two way radio. It will definitely serve you very well.
