Nikon Coolpix L24 â€“ with advanced features By Paul Smith

Article published on April 13th 2012 | Technology

The Nikon Coolpix L24 helps you to keep your memories alive and is easy to carry with you on any type of journeys or events that are special and memorable. The digital camera is a user friendly camera that comes with myriad features to suit your requirements. The body is compact and sleek and is easily placed in the pocket. The pictures produced are bright and vivid. You get sharper and more natural images than you ever though would be possible with a camera as low priced as this. The Nikon Coolpix l24 price is affordable and is accessible even to the low budget user. It is ideal for gifting to any one and a useful device that can be taken anywhere.

It is a light weight camera that has 14 mega pixels and the LCD size is 3 inches and is perfect for beginners is what the Nikon Coolpix L24 reviews have to say. The sensor type is CCD and is available in 4 x digital zoom and 3.6 x optical zoom. The shooting modes available are easy auto mode, smart portrait, movie mode, auto mode, scene modes and many more. You can get facilities like the macro mode as well. The metering provides multi metering, center weighed metering and the spot metering. The battery is a rechargeable Ni-MH battery EN MH2 and can give around 700 shots. The interface consists of USB cable and the audio video interface. The memory provided is 17 MB that can be upgradable via the SD card. The color modes that are available are the portrait, fireworks, black and white copy, night portrait, landscape, food, sunset, dawn, backlighting, party, beach, night landscape, and panorama assist.

The other features are the built in flash, auto flash, red eye reduction, self timer and even the image stabilizer. The colors that are available in the digital camera are purple, blue, pink, silver, red and black. The weight is 182 grams and the dimensions are 97.7 x 28.3 x 60.5 mm. the amazing thing is that the camera can support various languages as well. The easy auto mode can automatically select the right settings for the situation and can give you a perfect picture without any effort. One can use the scene modes to add your own creativity to the images. Several other features like the smile detection blink warning and red eye fix too can be found in the digital camera.
