Nokia E7 Contract: Good Looking and Handsome Handset by Oliver Batham

Article published on January 4th 2012 | Technology

Do you want to take a good and handsome cell phone? Then, go to market and get Nokia E7 contract, which looks alike of Nokia N8. At the first sight, both handsets look very similar but when you observe carefully then you can be found some differences between Nokia E7 and Nokia E8. If you want to good and attractive features in you handset, Nokia E7 has good features and by looking it is slider QWERTY keyboard. In addition to that, the camera resolution of the handset is lower than that of Nokia N8. You can be availed Nokia E7 contract very soon in Dark Grey, Silver White, Green, Blue, and Orange. Nokia E7 is a slider phone.

There is no fixed date to launching Nokia E7; therefore, no service provider has exposed its Nokia E7 deals in the market. In Nokia E7, users can find various specifications. It is slider cum touch screen form factor. The external interface of the handset is entrenched with 4.0 inches wide AMOLED capacitive touch screen which is featured with Nokia Clear Black display. Nokia has got beneath display screen; there is a full QWERTY keypad which makes it a business oriented handset. Sp what you are thinking now just go to market and take this good-looking handset at your home.

Nokia is such a brand that always tries to allure users by industrialized classy and highly advanced handsets. Most of the people get excited as it launches any of its innovative phones. Nokia is not only incorporated with advanced features but it has also got fresh as well as classy looks. Nokia E7 Contract is the recent innovation, which look quite similar like its N8. The most remarkable difference between both the phones is that E7 slider QWERTY keypad and it is little bit heavy.

Nokia E7 is organizing Symbian 3 OS and powered by ARM 11 680 MHz processor with 3D Graphics HW accelerator. It has two dual cameras. The primary camera is 8MP and the secondary camera is for video calling. In addition to that, users can find multimedia player, document editor, internet connectivity features, social hub and many more, which they wouldnâ€™t have thought about it.
