Article published on April 25th 2012 | Technology

Did you ever wonder why is the popularity of an IBM typewriter has not faded in this modern e-age? Are these devices good enough to compete with the latest devices imbibed with fantastic features? What is that one factor that prompts many to choose this device even after having a computer of laptop?

It is answers to these questions that can explain perhaps why the popularity of ibm typewriter has not diminished. On the contrary, there are many who buy it for a different intention. They contend it serves them the best whenever they think of a backup tool. Moreover, because such a typewriter does not contain a lot of complicated features, it becomes easy to handle.

Yes, with changing times, there has been one significant development when it comes to typewriters. In earlier times, it was the manual typewriter that played the vital role in every official setup. The modern practice in these offices is to have selectric typewriters.. The fact that time is valuable in modern days the role of selectric typewriters needs a special mention. For, they help the different offices and houses to save their crucial time from being wasted in using the typewriter. Yes, these devices still play the role of a copy machine which was the prevalent practice in earlier days. Realizing the sharp increase in its demand, numerous manufacturers have joined the mad race to woo their target audiences. This explains why they come out with different models from time to time. Similarly, in order to receive huge sales volume, they also offer various types of discounts and offers. A lot of their customers prefer these typewriters to computers just to avail these discounts. After all, every penny saved counts in these troubled times of an inflationary market conditions.
