Superpad Tablet 10.2 by Carina Coronel

Article published on February 15th 2012 | Technology

With amazing advancements of technology, a wide range of Tablets have come up with surprising packages. Superpad Tablet 10.2 joins the rally with great gusto. Highly stylised and sleek, Superpad Tablet 10.2 is not just a medium of entertainment and recreation; it is immensely functional and effective. Be it pure entertainment or purposes purely official, it is highly recommended as it serves each and every purpose. With a vast screen of 10.2 inch and touch screen, it helps you to work without much pressure on your eyes and is comfortable. Touch screen helps you navigate with ease and is user friendly. With 32 GB memory, numerous cable ports and SD shots, it provides you external memory capacity as well which ensures proper storage capacity of your data. Wifi and Bluetooth allow you with every possible network connection. High capacity webcam and integrated bass speaker helps for video calls and effective sound system. So be it your media files, songs, photos, videos or documents- feel free to share, store or upload as Superpad Tablet 10.2 is not only stylish, but is absolutely user-friendly. It also has provisions for USB sockets to add keyboard, mouse etc making it far more user friendly as if you are not comfortable using the touch screen it makes it easier for you by allowing you to use it through the mediums you are friendly with-keyboard and/or mouse.

Also, it is amazing for recreational purposes as well because if you are travelling or is bored, watching movies in HD quality or listening to music in a clear bass music system serves your purpose. Also, needless to say, it allows you to connect with earplugs through its multiple sockets, so, if you wish to enjoy and work, the multiple sockets allow you to do it all and with perfect ease. It has high battery capacity which allows you to work uninterrupted for a longer span of time. Superpad Tablet 10.2 also has a special feature of digital pen which allows you to write and draw on the screen instead of typing or selecting on the screen which is not only innovative but is immensely fascinating. And with Android 2.1 it allows you every possible advantage of better picture and sound quality to faster browsing to sharing whatever you feel like with your connections in the social network sites or personally with perfect uninterrupted service. With a guarantee and warranty period enviable (recommended to buy from banded companies only after checking the brochures to meet your requirements), Superpad Tablet 10.2 is indeed nothing but a best buy.
