Tips to Improve Church Bulletin by David Bens

Article published on November 25th 2011 | Technology

If you are responsible for making church bulletins and printing, there are lots of things that need to take in consideration. Even if you are issuing church bulletin for some time now you may need to update it to get relief of the monotony. Generally, the church are short of budget and that is why the bulletins are of cheap quality. But with an improved design, the members can be encouraged to participate in the activities and be well informed. Following are some tips to improve the bulletin.

1. Use template: Using Templates is quite common thing but there are many templates that do not come out well at the time of printing. There is different printing process that suits different templates. It is better to choose the printer first and then select the template according to it.

2. Professional design: Church templates are often desiged by the members of the church and do not have the professional appeal. What you can do is to hire a freelancing graphic designer who will be in a better position to tell you about the design and give your church bulletin a professional look. When designing it makes sure that, the most important thing gets noticed first.

3. Printing process: When you have finalized the look of the template, it is time to decide the printing process. It is always good to take a note of the number of bulletin that is required. Because there are cases where the number is much more than required or much less. If the number is quite less it is better to go for digital printing and if it is quite high then it is better to choose offset printing.

Church Bulletin is an important part of church activities and the better it is the success of the activities is better.
