LG 55LK520: an Excellent Gadget for You by [Sushant-tech](#)

Article published on July 12th 2012 | [Television](#)

Television is one of the most popular gadgets and you can't just ignore its massive importance in our day-to-day lives. The present day television mainly belongs to the class of LED, LCD and Smart TV. Besides, you will also find TV sets having the technology of both LED and LCD. One of the premium quality LCD TVs available in the market is LG 55LK520. As per latest Television Review, this gadget comes with full HD 1080p resolution. Equipped with intelligent sensor, this TV enables you to have HD content, games and Blu-ray entertainment.

LG 55LK520 comes with a great contrast ratio and a wide viewing angle. It will give you the experience of watching movies in the theater. The device is also featured with refresh rate and response time for ensuring that you do not miss any action, whether you are playing games or watching them. It is equipped with HDMI and USB connections, which are easy to set up, simple in terms of use and highly versatile. In terms of looks, this gadget is simply great and is also power efficient.

You will be pleased to find the TV to be 3.8 inches thick. Apart from the thin design, you will surely fall in love with the speakers that are on the left and right of the frame. As compared to many flat screen television speakers, These TVs provide full sound even if you use in small or medium-sized rooms. It will be better if you use in larger rooms in order to get greater audio impact. It is also recommended that your LCD TV is used with a full-fledged surround sound system.

The LG 55LK520 has a 150,000:1 contrast ratio, which is known to be better than many television sets. With this television, you are able to get vibrant images that appear to be very real. It is loaded with a lightning-quick response time of 2.4 milliseconds. This device comes with an aspect ratio of 16:9 and a refresh rate of 120-hertz. All these high-end technologies will have a great impact on the minds of the consumers. It will give you a feeling of satisfaction whenever you turn on your TV.

LG has incorporated all the adjustment system for your TV so that you can use it in the living room, bedroom or home theater. It has the capacity of self-calibration, which is instrumental in automatically changing the color, black levels, tint, backlight levels and sharpness to match the lighting conditions of any room with just one simple step. It helps in eliminating the requirement for changing a long list of settings to get the picture quality you desire.

The LG 55LK520 is really effective in providing crystal-clear picture to the users. It comes with a great design that defines your style statement. High contrast and brightness are some vital features of these televisions. Latest TV Review also reveals that it is equipped with parental locks and Wi-Fi internet access as well as with video streaming for families. Most importantly, it comes with high quality refresh rate, which makes it highly suitable for gaming or sports. If you are planning to own an LCD TV with premium picture quality in its class, the LG 55LK520 is an ideal option for you.
