Different limousine cars and their features by Christina Kevin

Article published on June 7th 2012 | Travel

Limousines are the most expensive vehicles which are designed especially for extra comfort and luxury. They are the ultra luxury vehicles and are considered as a symbol of wealth and style. Chauffeur driven limousines are used all over the world in various events and occasions. People especially pay heavy charges to hire them for their special events. The difference between ordinary vehicles and limousines is that of brand and their extraordinary amenities. Limousines are hired for parties, weddings, proms, night on the town tours, airport transfers, business meetings & road shows, corporate events and transfers and many more. The different types of limousines hired for different occasions include:

Sedan Car Hire

Sedans are the most economical and affordable type of limousine cars. They look like other sedan cars but are equipped with ultra luxury features and amenities that are second to none. Sedan limousines have a comfortable seating capacity of a maximum of 3 people. They are most suitable for couples. They contain amenities such as rear controlled air-conditioning system, roomy interior, powerful reading lamps, a cellular phone, satellite radio, large room for rear seat passengers, fold down writing/laptop desk, power points, DVD player, iPod connectivity socket, water cooler and a trash container. The biggest use of sedan limousines are the world is wedding events. They are hired for carrying bridge and groom to the event place. The most popular of all sedan limousines include Lincoln Town Car L Series, Mercedes S Class and BMW 7 Series. Sedans are also hired by individual travelers who are conscious about status and class.

SUV Car Hire

SUV limousines are the second least expensive of all limos. They are the Sport Utility Vehicles with the comfortable seating capacity of 5 to 8 passengers depending on the type of SUV you have hired. They are hired by groups of people or families for spending a day out or for traveling to special events with comfort and style. Chauffeur driven SUV limos are also hired for adventurous tours that include desert tour or forest tours because they are suitable for all kinds of roads and conditions. They are very roomy from inside and are best option for family travel. You can easily sit back and relax during long journeys in the SUV limos. The SUVs include state of the art features and amenities which include great cargo hauling capacity, a satellite radio, CD/DVD player, 8â€• LCD TV, individual climate control system, power sunroof, strong spot lights for reading, leather upholstery, privacy partition and much more.

Stretch SUV Car Hire

Aside from the ordinary SUV limousines, there are also stretched SUVs which are long and more spacious. These SUVS are very expensive and luxury vehicles. They have the comfortable seating capacity of up to 18 passengers. Stretched SUVs are perfect for parties and family events. The most popular of all stretched SUVs include Hummer H2 Stretch and Escalade ESV Stretch.

Stretch Limo Hire

Stretched Limos which are also known as stretched sedans are the most expensive and luxurious vehicles. They are the main symbol of limousines and are most popular of all. Stretched sedans depict sheer luxury. They are a symbol of wealth and status around the world. People hire them for attending business meetings, to impress their counterparts or their clients, for corporate weddings

and any kind of corporate transfers. They contain amenities which are matchless. The most popular of all stretched sedans include Lincoln Town Car Stretch and Chrysler 300C Stretch.
