Great Australian Tours That Bring You to Dream Places by [Addison Bell](#)

Article published on December 16th 2011 | [Travel](#)

Some of the most energetic and most fantastic cities in the world are located in Australia. This makes it necessary to select a good destination wisely. Travelers will be provided with package tours by operators that will take them to various Australian locations like Gold Coast, Darwin and Moreton Islands.

Darwin tours are perfect during the dry season as people will enjoy the relaxed outdoor lifestyle of the city of Darwin especially at night as nightclubs and hotels show their spirit. This part of Australia is the right place to prepare your feet as you explore the country's Top End and access the Kakadu and Litchfield national parks. You can try fishing for Barramundi with one of the Darwin fishing charters or have fun watching at the crocodiles in the wild habitat on the Adelaide River.

Gold Coast tours, on the other hand, are made popular because of the amazing tourism in the region. Its fantastic climate is one of the reasons visitors come to the area. The region has the longest whale watching season so this can be a consideration that you must take note if you wish to travel here. You can also experience the natural rain forest locations in the region or take boat tours and standby tours in the interiors of the country. You can get some time being in the Surfers Paradise, the integral portion of the Gold Coast that has superb beaches with an extraordinary hilly hinterland located west of the sea shore. The Gold Coast brings you a number of Theme Parks that are full of touristic opportunities and activities all year round.

A visit to Australia should not miss some Moreton Island tours that will allow visitors to participate in some water sports. You can watch the Moreton Island clearly through a helicopter from the quay. You can go whale watching from the light house located on the Northern Headland. There you will be able to get a view of two whales that get their way to the Southern Oceans every year. In the island you can also enjoy the Tangalooma Beach front that takes pride of pale yellow sand and magnificent crystal clear waters at which you can enjoy jet skiing or sun bathing. When you go farther, you can find some sunken wrecks that are utilized as boat anchors. You can also travel to the island's other part where you will face the Pacific Ocean.
