# Great wedding traditions: Stag weekend by Mary Porter

Article published on June 20th 2012 | Travel

Of course when you are getting married the ceremony itself will always be the main event but the precursory wedding celebration that is the stag weekend is something which many grooms look forward to. Even if you have not tied the knot yourself then chances are that at some point you will have attended one â€“ and enjoyed it!

It goes without saying that the stag weekend is usually strictly a male affair. The groom will typically leave the task of organising the event to his best man, which is a brother or close friend. The idea of a stag weekend is for the man in question â€“ known as the â€˜stagâ€™ â€“ to have the last â€˜big weeke pals before getting hitched.

The stag weekend is one of our nationâ€™s most respected traditions. Indeed it could be described as a very important institution. The female equivalent, known as the hen night, is also far from a subdued affair, with plenty of alcoholic beverages, naughty games and laughs very much being the modus operandi.

If you are struggling to organise a truly memorable stag weekend then there are options to suit all tastes. There will usually be copious amounts of alcohol involved â€“ although many people prefer to take it easy or avoid alcohol out of religious belief or personal lifestyle choice.

Whatever your preference, there are all sorts of stag weekend activities which make for a very enjoyable experience. For instance paintballing is a very popular choice. Other adrenalin-filled stag weekends which never fail to impress include the likes of abseiling, rally karting and indoor shooting. If you want a stag weekend with a difference then you should consider one of these exciting activities.
