# How to Find Affordable Hotels in Derbyshire by Elissa Joyce

Article published on January 17th 2012 | Travel

Derbyshire is a great place to visit with a loved one or with the entire family. You will discover many places to visit in this historical county of England. The first thing you have to do is to make a list of places you want to visit in Derby and surrounding towns. After determining your itinerary, you have to check hotels in Derbyshire and make a booking.

You can find websites of hotels in the area via the internet. It may be difficult to choose one hotel from so many websites on the net. An easier way to find a hotel is to visit an online hotel directory. On this kind of website, you will find a list of reliable hotels in specific locations. Look for accommodations in Derbyshire by clicking on the appropriate location on the site.

Once you get to the webpage for Derbyshire hotels, you can browse through the choices and get basic information from the directory such as telephone numbers and addresses. Sometimes, the listings will have a link that leads to the main site of the hotel itself. Clicking on this might give you more information such as prices, amenities, and photos of the hotel grounds and rooms.

You can compare prices, locations, and rooms online before deciding on only one hotel. It will be more practical to do this on a hotel directory since all the information you will need to make comparisons will be on one site. This is more convenient than visiting individual hotel websites or looking for a place to stay through the yellow pages.

You can choose from hotels with different ratings that charge different prices. If you want to be more comfortable, pick 4 or 5 star hotels in the area or book yourself in a high end bed and breakfast inn. There are also many choices online that offer lower rates for the budget traveller. Another way to stay at a nice hotel for lower prices is to visit Derbyshire during off-peak season.

There are also hotels in Derbyshire that offer special offers and discounts. You can find these special offers on directory websites or on the main site of the hotels. You can print out coupons from the website. Another way to get good rates for good hotels is to sign up for their newsletter. This way, the site can email you promo offers as soon as the hotels make them available.

Once you get discount coupons in your email, you can print them from home and make a booking online. You can provide the serial number of your coupon on your booking or bring a printed copy with you when you go to Derbyshire. Once you have completed your comparisons and chosen one hotel to stay in, you can make a booking online and even pay a down payment with your credit card.

If you will be paying for your room online, make sure to print out a receipt. Many hotels in Derbyshire have their own websites online and you can find all kinds of information you need to make a decision before you even get to Derby. This gives you a chance to make an informed decision regarding your accommodations.
