Club Mahindra Review

The Club Mahindra Whispering Pines resort is a dream come true, it is one of the best Club Mahindra property I have visited. I took my Club Mahindra membership in January 2009 and since then I have visited 3 of their resorts. This is one of the best. It not just looks beautiful; it is beautiful from inside too. I had checked out a couple of Club Mahindra reviews and they had put up pictures of the Whispering Pine resort. I must say the resort is as beautiful as it looked in the pictures.

The rooms of the resort were clean and ha a small tea-coffee maker, a small fridge, dressing table and a large LED television. The heater in my room was working fine so I could sleep quite comfortably. It becomes quite cool in the evening here. The resort has a small park and in-house games like table tennis, badminton, chess, carom etc. Food served was delicious but rather steeply priced. They offer lots of variety in their buffet style dinner and breakfast. Hotel has a lift which was working very smoothly so you donâ€™t have to worry on which floor your room is. There is a small dhaba outside the hotel in case you want to spend less on food. Overall it is wonderful experience for a holiday.
