Just when we think summer has arrived here in the UK, we get snow. As we pile on the warm clothing again, the sun shines. All we want is some guaranteed sunshine, sparkling waters and sandy shorelines. We want to be able to make plans the day before on the outdoor activities to do the next day and that is why Spain is such a popular tourist destination for many people living in the UK.

Three Hundred Days of Sunshine Each Year

La Manga rentals are in a club in the city of Murcia on the south east coast of Spain. A beautiful city which is blessed with three hundred days of sunshine each and every day, so why wait for summer, you can go any time of year.

The club itself has golf courses, tennis courts, fitness centres and football centres and the superb accommodation available includes apartments, townhouses and luxurious villas, just what you need to wind down on your next vacation.

Whether you intend heading to the beach and soaking up the sun or you want to wander the streets of the city and shop at all the boutique stores, itâ€™s your holiday, you do what you want. There are also beautiful cathedrals and monasteries, museums and regional parks for your enjoyment and exploration.

Go hiking in the mountains or take a quiet and leisurely walk along the sandy shoreline before heading to one of the gastronomic restaurants. The city is abuzz with things to do for romantic couples to the biggest of families.

With so much to do in the beautiful area, La Manga rentals make it possible for a vacation to be enjoyed by the entire family from a fun barbeque to splashing in the pool to exciting exploration excursions. La Manga rentals is a short flight from the UK so you donâ€™t have to worry about jet lag or the children getting too bored on a long flight, you can arrive and be ready to start your vacation. Once there they have a good public transport system, so you can get to anywhere in the city with ease without your car, so you donâ€™t have to worry about that at all.
