# Transportation Facilities at Stansted Airport London

by Jocasta Marvin

Article published on July 3rd 2012 | Travel

Stansted is the fourth busiest of all airports in United Kingdom. It is one of the most advanced and beautiful airports of UK with a unique oblong shaped terminal building. The oblong shaped building of Stansted Airport which is completely made of glass has won many awards due to its unique architecture and appealing design. The airport is a choice for majority of people traveling to and from London because it is a home to majority of the low cost carriers which include Ryanair and EasyJet. The low-cost giant Ryanair offers transfer services to more than 100 destinations across the globe. In terms of total yearly passenger traffic, Stansted comes fourth, followed by Manchester, Gatwick and Heathrow. The Stansted Airport is owned and operated by BAA which is Spanish company. BAA is a unit of Ferrovial Group.

The airportâ€™s air traffic control tower is 60 meters long and is ranked among the tallest towers in the country. Ground transportation services at Stansted to and from different locations of the country are available 24/7 at cheap rates. There is a railway station located below the terminal building of Stansted Airport. The Stansted Express trains depart from the station every 15 minutes, taking passengers to Liverpool Station in London in a total of 50 to 60 minutes. Aside from train service, there are nonstop coaches at the airport which are owned and operated by National Express. These coaches provide extremely comfortable and nonstop transfer services from airport to all major locations across the country.

## Cheap Car Hire

Private cars are often hired by people especially by those who are there for a limited time on a personal or business trip. The car hire firms at the airport provide the ease and convenience of getting a car straight away from the airport instead of getting to the town on public transport and looking for a car hire company. Similarly Stansted Airport offers fabulous facilities for all kinds of car hire. There are booking and instant car hire desks located at the airport offering cheap car hire services for those who are budget oriented. These companies provide all kinds of cars including sedans, SUVs, stretched sedan limos, and stretched SUVs, vans and limo buses.

## Airport Taxi Hire

The usual trend is to hire an airport taxi when you reach your airport. The taxi drivers who are usually local that area, take you straight to your destination with ease and comfort and via shortest and most convenient route. When you have hired an airport taxi you donâ€™t need to get into the hassle of roads and directions as the professional driver will only need to know where you have to go and the rest is up to him.

## Taxi reservation

If you are one of those people who donâ€™t find it reliable to hire an airport taxi after their arrival at the airport and wish to get their transfer service booked in advance? The best thing about hiring a taxi in advance is that you get a worry free travel. There are many different ways of making an advance taxi reservation. CrossCab being one of the leading online taxi hire firms of United Kingdom offers website and mobile cab booking services for the convenience of their customers. You can make taxi bookings by calling their 24/7 helpline or visiting their website, or via mobile application/site on your Smartphone.
