Travel Can Be an Enlightening Experience or a Humdrum Endeavor by Dean Orbell

Article published on February 17th 2012 | Travel

Youâ€™re coming dangerously close to being permanently grafted to your La-Z-Boy recliner, so this might be the ideal time to buy a crowbar, pry yourself loose, and go somewhere. You could go to some tourist sinkhole where drinking, swimming, and shopping are seemingly the only activities permitted by law, but that may be better than staying on the sofa.

But, if youâ€™ve seen one all-inclusive resort, with loud, overbearing activities leaders who wonâ€™t toler a moment of peace near the pool, youâ€™ve seen them all. Itâ€™s possible your visit to the all-inclusive resort began well, but rapidly degenerated into a health crisis requiring a physicianâ€™s visit to your room, during which you were provided a black-market restorative injection.

Youâ€™ve likely endured the deafening music at 6 a.m. that accompanies the morning aerobics class thatâ€™s taking place directly outside your hotel room window. And youâ€™ve tolerated the inebriated guests, relentless souvenir peddlers, and self-appointed tour guides who make your every waking moment a nightmare.

You might be totally worn out by predatory salespeople who wonâ€™t rest until you attend a free seminar on how you can purchase a timeshare in this â€œGarden of Edenâ€•. Maybe youâ€™re bored wit of this -- and if you arenâ€™t, you should probably talk to someone, so maybe itâ€™s a smart idea to look elsewhere for travel suggestions.

Do yourself a favor and look up US passports renewal facts, because it sounds like you need to begin visiting places that are drastically different from where youâ€™ve been. Itâ€™s always a good idea t make sure that your passport is up to date, so that you can get away on a trip to a foreign land if the opportunity should suddenly open up.

Sure, you faked mental frailty in a bid to be declared 4F, so how weird is it youâ€™re applying for a visa for Vietnam, especially when you could have traveled there for free in 1969? A tour of Asia would be just the right antidote for travelers who have seen too many packaged tours in resorts that are fashioned purely for tourists.

You could go to locations where the people of the nation youâ€™re visiting actually live and work, and you can experience a countryâ€™s true culture. You can see the cities, museums, seaports and all of the facets that make up the fabric of life in any of a number of countries scattered throughout the world.

But in order to do this, youâ€™ll likely have to commence early securing the travel documents that youâ€™ need, including visas and other sorts of permits, if needed. Youâ€™d better establish exactly what kinds of permits and papers youâ€™re going to need to visit the countries that you want to see, so get a timely start on that.

Get the preliminaries of documents, permits and passports taken care of, and then you can fully focus on the great adventures that are just a plane trip away.
