Ways to Save when Staying at a Hilton Hotel by William Hauselberg

Article published on January 30th 2012 | Travel

Hilton Hotels are known for their luxury accommodations. With stylishly decorated guest rooms and suites and first-class amenities, Hilton has set the standard for hotels around the world. But before you book your stay at a Hilton, consider the many ways you can save money while still enjoying all the luxuries the hotel has to offer.

If you are planning a vacation with somewhat flexible dates, consider booking your stay during the off-season. Hotel rooms are often offered at discounted rates in off-season months to help bring in more guests. An added bonus: traveling during the off-season means less crowds as you enjoy the sights and destinations in the area. If your dates are rigid, book your room at a Hilton Hotel in advance. Advance bookings at a Hilton can mean discounts on your stay of up to 20 percent.

If your trip requires a flight, try to book your flight and hotel as a package. Something as simple as booking both your flight and your hotel together can end up saving you big. Scheduling major trip that involves a flight can sometimes be stressful. AAA members often find it helpful to contact their local agent to assist in booking their trips and to take advantage of AAA hotel discounts. A membership with AAA can save you ten percent or more on your room. Even if you donâ€™t use an agent to book your trip, with AAA Hilton hotels will honor your discount when you present your card at the counter. You may also wish to consider adding an extra day to your stay. Staying two or more nights at a Hilton can actually end up saving you money on booking fees, and who doesnâ€™t want an extra day away, especially at a Hilton hotel?

Earn Points With Loyalty Program

Another great way to save when staying at a Hilton Hotel is to join the HHonors Program. Through HHonors, you can earn points, travel miles and other exclusive membership benefits. When you use one of three participating HHonors credit cards, everyday purchases such as gas or groceries can earn you points that add up to big savings when booking your Hilton Hotel room or even your flight to your destination. Two of the credit cards carry no annual fee, and some even offer 40,000 to 60,000 bonus points just for signing up.

Your trip away from home should be a memorable one. Hilton Hotels offer the comfort and luxury you need to help make the most of your stay, so take advantage of the many ways to save when staying at a Hilton.
