Article published on November 29th 2011 | Travel Tips

Carmona Race Track

An attraction suitable for visitors of all ages, the Carmona Race Track places guests beside the track to get up close and personal with all the racing action. Along with watching the cars, visitors can compete in go kart races themselves.

The Planetarium

Located at P Burgos Street is the planetarium. The planetarium features more than just the obvious, however, it also has a bowling alley and other sports facilities.  Guests can jump into the action or sit back and watch. While family-friendly, the planetarium is also a great spot for the late night crowd, as it is open very late.

Eat!

One of the best experiences you can have in Makati City is the food. The city boasts a number of top-notch restaurants that offer both traditional dishes and more modern styles of food and dining.

Cabalens offers native Pampanga dishes for those looking for something more traditional. On the flip side is Via Mare, which specialises in some of the best oysters in the region. Gerryâ€™s Grill uses the grill to cook and serve up native dishes. Meanwhile, Bubba Gump offers simple and excellent shrimp. The area even has international food. Try Spanish dishes at Chateau 1771 or Japanese food at John and Yoko Cosmopolitan Japanese Resto.

Makati Hotels

Many hotels in Makati are located close to these and other attractions. Others may place visitors nearer to the mass transit lines running through the city. Directrooms.com can help travellers to Makati to find a hotel to suit their needs.
