When Renting Vehicles from Car Rentals New York by David Watson

Article published on May 18th 2012 | Travel Tips

Car rentals New York provide excellent means of transportation in and around the city. Whether you are a tourist, wedding planner or a business host, renting a car in New York is easy and enjoyable. Here are three aspects to keep in mind when considering hiring an automobile, whether for airport pickups, wedding party rides, sightseeing and so on.

Compare Car Rentals New York

Research various car rentals in NYC. The internet is the easiest way of deciding on a rental company. There are hundreds of websites of car rental firms in New York. When searching online, you can compare the companies side by side to select the one that best suits your needs without having to drive to individual services. You can also get referrals from friends and families of car rentals New York that they have used in the past. Newspapers normally contain ads of rental firms around the city.

When looking for rent-a-car, consider factors such as rental rates, insurance, car type, car capacity and any additional services provided. Compare these factors to determine the company that offers what you are looking for.

Car Rental Charges

Rental charges are a crucial feature to look for when hunting for rental cars. Different companies offer different rates. Charges for car rentals New York depend on:

â€¢ Car type -- 7-seat SUVs, 15-seat SUVs, Mustangs, vans, limousines

â€¢ The distance you want to travel

â€¢ Level of luxury you are looking for

â€¢ The duration of rent

â€¢ Other individual company rates

Look out for special offers, coupons, deals and discounts offered by car rentals NYC. Some online rental services provide promotional codes. You can avail discounts on rental charges by using these codes. Make sure to note down the expiration date of promo codes and other special gigs so that you donâ€™t miss out on them. Contact (212) 222-8500 for further details.

Select Car Type And Style

Select the car type according to your purpose and the number of people traveling with you. If you are hiring an automobile to pick up your boss from the airport, you may want to opt for a sophisticated car type to make an impression. If itâ€™s for a post-wedding, romantic outing for the newly weds, an elegant limousine will be perfect. If you are searching online, it is best to visit the car rental service to examine the car in person before booking it. Call (212) 222-8500 to make an appointment or a reservation at quality rental services across the city.
