Article published on May 2nd 2012 | VOIP

The growing popularity of calling cards to attract a lot of people, and as a result, you can find some phone card companies offer competitive rates. It is true that you can save a lot of money on their monthly phone bills when you use prepaid phone cards for international calls. These cards allow you to make local calls, as well as the call rate is much lower than that offers telephone service provider. It is for this reason that many people prefer to use calling cards and phone cards, did business, hot business industry. With many companies offering calling cards, you should know how to stay away from the fraud that your money and you get nothing in return.

Look for hidden fees

The main reason for calling cards is a tendency to drive, make international calls at low prices and save money. This aspect is at risk if you choose the wrong provider. While many service providers advertise offer much lower prices per call, in fact, they charge high maintenance fees to keep your account active. This hidden tax is not advertised in their ad. To keep your card active, you have to pay this fee care.

Another area where you lose your phone card to save on your phone provider's policies. Some phone card companies to provide limited services in some countries and if you want to make an international call to another country, you have to pay a huge sum. When choosing your provider to inquire about those countries that offer the service provider. Many people choose to call international calling rather than mobile phones. Calling card providers may charge more when you call a payphone.

Phone card companies may charge extra when you use prepaid phone cards, mobile phones or payphones. If you are a frequent traveler, interested in preserving their phone bill, select the provider that allows you to use a prepaid card for your cell phone. Another area where there are scammed by connecting the call charges. Many service providers to deduct a certain amount from your account when connecting and disconnecting the connection. If a lot of short calls, hey charge high maintenance fees to keep your account active. This hidden tax is not advertised in their ad. To keep your card active, you have to pay this fee care.select the provider, which charges a minimum fee for the connection.

How to stop the fraud?

It is important to talk with your provider to know about the various taxes, before you buy your phone card. When you see that the provider is not interested in talking about hidden charges and trying to hide this information, it is better to stay away from him. To escape from the scam, you have to do research and choose the best provider of services you want. There is no single provider who can be called the best of all needs. You can call toll-free telephone number of the International. Prepaid Communications Association IPCA) to resolve problems on your phone card. If this fails, you can contact the District Attorney Consumer Fraud unit in its place.
