B2B Script is very powerful and effective solution to launch your own Global B2B Trading Portal. B2B Script has high end features to provide a very strong foundation to your trading portal.

What is B2B & B2C?

Business-to-business (B2B) describes commerce transactions between businesses, such as between a manufacturer and a wholesaler, or between a wholesaler and a retailer. Contrasting terms are business-to-consumer (B2C) and business-to-government (B2G). B2B sites are used where volume of transactions are more.

However incase of B2C transaction, sale of the finished product to the end customer.

Our Alibaba B2B Scripts can also be used in the context of communication and collaboration. Nowadays many companies are using our B2B Scripts in order to generate more sales and business with other companies. B2B Scripts helps in increasing transaction between Employees of different Companies.
