Article published on April 19th 2012 | Web Design

MatrimonialScripts.comâ€™s Matrimonial Portal Script is a web product for running powerful and customized matrimonial services. Our Matrimonial Script comes with a front site (fully customizable and template based), giving complete snapshot of the matrimonial site. Weâ€™ve designed the matrimonial site in such a manner that it gives the glimpse of each module to visitors. It attracts the visitors to register on your site by creating a free profile. Easy Partner search abilities includes Quick Search and Advanced Search along with other search parameters. Registered members can fully control his/her profile and can edit or delete when required. Admin (using admin panel) can fully control all the features of the matrimonial site, like content management, user management, memberships, activations etc.

Complete Revenue Generation Solution

Running your own online matrimonial portal site and providing a unique matchmaking service, will generate massive revenue for you depending on your marketing strategies. The Matrimonial Script weâ€™re going to provide you will be having complete advertising system and membership package to increase your revenue.

As an individual you can start your own Online Matrimonial Portal Site in few minutes. You donâ€™t have to write a single line of code. From Admin Panel you can manage everything. Matrimonial Sites always drive more traffic compared to any other online industry on internet. You can keep membership free or paid to generate revenue. Keeping Google Adsense will generate an extra income for your apart from membership earnings.

If youâ€™re already into matrimonial matchmaking business, this matrimonial script will definitely increase your sales to a new height. You can run a branded Matrimonial Site in your company name, you can easily earn massive income similar to what shaadi.com, bharatmatrimony.com and jeevansathi.com are earning. You can easily manage the complete matrimonial business from Admin panel, no need to hire big staff for this.
