A Head Start on Marriage: Planning your Wedding by [Kindra Leomiti](#)

When planning your wedding, youâ€™re not alone, of course; sometimes, though, the stress takes its toll and it feels like youâ€™re on your own. Naturally, you will want things to go your way because it's one of the most important and colorful chapters of your life. A successful wedding, after all, can make one troop down memory lane like few other things can â€” especially if youâ€™re thinking of yours.

If you're planning to tie the knot anytime soon, it is wise to sort out the details first. One of the things to put on top of your priority list is the wedding theme. Part of what makes weddings enticing and memorable for attending guests is the theme. If you were to compare the ceremony to a cake, the theme is the icing on top that makes it discerningly unique and, thus, stand out. Wedding themes can be just about anything a couple can think of: be it a black or white wedding theme, a beach theme, a fairy tale theme or whatever the imagination comes up with.

Generally, the wedding theme must go perfectly with the wedding venue. Even well-planned and carefully-detailed beach themes can prove to be a waste if the ceremony's not held on the beach. When choosing a venue, explore all possibilities and find the place you â€” and your guests â€” will be comfortable with.

Pasadena, California offers ideal venues for your special day. The city is known for its natural scenic beauty, vibrant culture, and rich architectural settings. There's a large variety of wedding venues in Pasadena that fits everyone's taste and budget. Three of the most popular venues in the city are The Happy Trails Garden, The Langham Huntington Hotel, and Noor.

When choosing Pasadena wedding venues, consider the number of guests, the amount of space you need, the rules and regulations of the venue, and the location's weather if the event will be held outdoors. Do a walk-through of your prospects by taking pictures and documenting specific details that make one better than the other. Avoid removing sites you haven't visited yet on the list as it might pleasantly surprise you.

Statistically speaking, couples who claim to have had the perfect wedding day end up with a good marriage. Itâ€™s a given that you want your marriage to work; start by buckling down on the details of your wedding and taking a quick look at wedding venues in Pasadena CA.
