Newquay Town

Newquay is fast becoming a top UK beach destination to take your wedding vows and celebrate your wedding day. This growing popularity of Newquay weddings are of little surprise when you consider the array of beautiful sandy beaches, generally milder climate and many beach-side hotels affording Civil Wedding licences and spectacular coastal views. Whatâ€™s more, the trendy surf community and laid-back coastal life-style of the town offers many attractions and things to do, so entertaining your guests over a weekend of wedding celebrations is easy peasy. Newquay is simple to get to, with good road, rail and air links. Itâ€™s also developing a high profile world-wide audience with many surfing, boat-racing and sporting events taking place each year. Look just 1 mile outside of the busy town centre, and see chic beachside coastal apartments being built and sold at a growing pace. The Pentire headland, overlooking the world famous Fistral beach on one side and the river Gannel estuary on the other is a prime example of this exciting redevelopment and regeneration of the Newquay area.
