Wedding Stages- Add charm to your event by Kudosm

Article published on May 25th 2012 | Weddings

Wedding is said to be the D day. It holds a very important place in every oneâ€™s life. People start planning for this day from their adolescence. Every one dreams of their themes, attire and venue. Whether the wedding should be in winters or in summers? There are lot many things running in oneâ€™s mind. Wedding is not a matter of 1 day, but it has a vast planning and comprises of Wedding Stages.

The very first stage starts with finding the perfect match i.e. the best bride and the groom. Now that the perfect couple is getting one it is our duty to have the best day, date, venue, music, decoration etc. Every single thing must be mesmerizing. For this an appropriate budget should be decided. Keeping with the constraints of that budget every single work should be handled. When almost 7 to 8 months are left the shopping must be completed or must be at the verge of completion. 2 to 4 months to the wedding the bookings to various halls, florist, and musician should be done, because when itâ€™s the season of wedding itâ€™s very difficult to get the favorite oneâ€™s and doing away with ordinary people is not a good idea. Planning before hand is always better. If it is the first wedding in your house you can always hire a wedding planner for the day or talk to people who have arranged marriages first also.

Then the next priority must be the attire. This is completely your choice. You need to look the best on the day so make sure you choose the best from the best place. A re confirmation should be given to all the bookings so as to check they are preparing for the finalized day. Cards should be posted to all relatives, friends. Gifts should be wrapped beforehand. All should be decided prior nothing should be left for the main day.

One week ago people start pouring in to the wedding house thus appropriate arrangement should be made so that no one has the grudges and bless the couple whole heartedly. Finally the day comes, there should be no hustle bustle everything should go as it was decided earlier. Everything should look fresh and lively. There should be a soft music played the entire day so as to give spark to the day.

The above discussed are the actual Wedding Stages prior to wedding. If one follows the above guidelines and plan the wedding everything would go well. This is the day when everyone wants that nothing should go wrong. So it would be wise enough to have a sound budget, hire a good wedding planning team and follow the stages as defined. One important thing to be kept in mind is that though you are hiring a wedding planner always keep a check because itâ€™ you who would suffer at the end rest no one. At the end I would like to conclude everything ends well if planned well.
