Hair loss can have major impact and can cause much anguish to the person in the long run. Although hair loss is not common in women, but still it has the same impact and perception on the person suffering from it. People facing from hair loss problem donâ€™t have to worry anymore with the availability of different options like toupee, human hair extensions, etc.

Let us gain some knowledge about these different options in detail:-

â€¢ Human hair extensions â€“ It has become the increasing craze in the modern times. People prefer this option to bring enhancement to their mane and to beat the time. Several new techniques have been developed to allow users to look attractive and enjoy a new look with human hair extensions.

These extensions can be done in several ways by making use of different methods. Users can choose their choice of human hair extensions to provide a good look to your mane.

Opt for human hair extensions that suit your personality and give you the best impression. Mane styling methods sometimes depend on person to person as different people have different preferences, skin texture and other such factors decide which human hair extensions method should be applied.

â€¢ Toupee â€“ It is basically a partial hairpiece used to cover bald patches. People with hair loss can make use of toupee to cover the entire head. Mostly it is used by men, as women prefer extensions or wigs, rather than using toupee. There are custom made toupees offered in the market, which are tailored to give natural appearance to the person using it.

For applying toupee, adhesives like glue or tape is used depending on the hairpiece. Also, they can be woven into personâ€™s natural hair to conceal mild hair loss. Colour and texture are the two main characteristics of toupee. Its objective is to blend into natural hair. The toupee is generally used to cover bald area of the head.

When obtaining adhesive for your toupee, it is advisable to conduct patch test on your skin for a period of 24 hours. This will ensure that your skin is not allergic to products. Generally such units are designed to suit hair texture and scalp. The base material used in this unit is very thin and un-noticeable.

Offline and online market offers several other options designed for both men and women. Those, who are facing hair loss in the crown area of head, toupee is ideal solution for their problem.
